EXPERIENCE

Full Stack Developer (Contract), MathUplift	2025 – Present
<i>Math learning platform (mathuplift.com)</i>	<i>Remote</i>

- Built Stripe subscription billing (stripe-php): Checkout Sessions for family, classroom, and seat-based school plans, webhooks, renewals, past-due retries, and cancellations.
- Designed role-specific Blade dashboards for students, parents, teachers, principals, and business admins, including payments, subscriptions, and customer service.
- Shipped MRR and account-growth charts, bulk pause/assign, grade auto-promotion with unassigned-teacher fallback, and student engagement features (streaks, medals, learning journey).

Laravel Developer	Dec 2023 – Present
<i>NCCS Software</i>	<i>Chandol, Kathmandu, Nepal</i>

- Lead developer of the Continuous Assessment System (CAS) and Bachelors Management System: production Laravel/Livewire apps for assessment, exams, enrollment, and academic records (Oracle 11g, RBAC, PDF reports).
- Led migration of legacy .NET systems to Laravel, improving performance and maintainability.
- Built real-time Livewire interfaces that reduced page load times by 25%.
- Mentor junior developers on Laravel best practices and modern web development.

Freelance Full Stack Developer	2022 – 2023
<i>Self-Employed</i>	<i>Kathmandu, Nepal</i>

- Delivered 5+ responsive, mobile-first web applications for local businesses (PHP, Laravel, Bootstrap, Tailwind CSS), consistently ahead of schedule.

PROJECTS & OPEN SOURCE

- **Mary UI Starter Kit** [\[GitHub\]](#). Open-source Laravel starter kit (Volt, Mary UI, Tailwind/DaisyUI) with authentication, role-based authorization, and an admin panel. Published on Packagist.
- **FuelLog** [\[GitHub\]](#). Native Android app (Kotlin) for logging fuel refills with refill prediction; 130+ commits.
- **Technical writing**. Laravel tutorials and web development articles for the Nepali developer community.

EDUCATION

Bachelor of Computer Applications , National College of Computer Studies, Kathmandu	2019 – 2024
